

11th International Model-Driven Requirements Engineering (MoDRE) Workshop

<http://www.modre2021.ece.mcgill.ca/>

HELD VIRTUALLY September 20 or 21, 2021 ♦ co-located with
29th IEEE International Requirements Engineering Conference (RE'21)

Call for Papers

The **11th International Model-Driven Requirements Engineering (MoDRE) workshop** continues to provide a forum to discuss the challenges of Model-Driven Development (MDD) for Requirements Engineering (RE). Building on the interest of MDD for

design and implementation, RE may benefit from MDD techniques when properly balancing flexibility for capturing varied user needs with formal rigidity required for model transformations as well as high-level abstraction with information richness. MoDRE seeks to explore those areas of RE that have not yet been formalized sufficiently to be incorporated into an MDD environment as well as how RE models can benefit from emerging topics in the model-driven community, such as flexible, collaborative, and AI-enabled modeling. We would like to explore how MoDRE can help consider human values and ethics, how MoDRE can be integrated with DevOps and iterative development, and how MoDRE can contribute to develop AI applications. We look forward to identifying new challenges for MoDRE, discussing on-going work and potential solutions, analyzing the strengths and weaknesses of MDD approaches for RE, fostering stimulating discussions on the topic, and providing opportunities to apply MDD approaches for RE.

Topics of Interest

Submissions are welcome in all workshop topics including (but not limited to) the following: **modeling languages** and **metamodels** for RE approaches as well as cyber-physical systems, IoT, Big Data, AI applications, and Industry 4.0; **synchronicity** and **consistency** of requirements models; requirements models for **machine learning** and **deep learning solutions**; requirements models **at runtime**, or for **human values** and **ethics**; **automatic analysis** and **simulation** of requirements models; **model transformations** for RE, **evaluation** of MoDRE, and MoDRE **in industry**.

Submission and Publication

Participants are invited to submit **research papers (eight (8) to ten (10) pages)**, **position papers (four (4) to five (5) pages)**, or **industry papers (four (4) to ten (10) pages)**. Full research papers report on findings for problems related to MoDRE that are novel and improve on or analyze existing solutions. Position papers report on ideas and visions for the future of MoDRE. Industry papers describe experiences related to the adoption of MoDRE practices in industry or highlight future challenges. Previously published papers or papers accepted or under review for other publications are ineligible for submission to MoDRE. Papers must be in pdf format, written in English, and formatted according to the IEEE formatting instructions detailed on the workshop website. At least three members of the program committee will evaluate the technical contribution of each submission as well as its accessibility to the audience. Papers will be judged on quality, significance, relevance, originality, substance, correctness, and clarity.

Accepted papers will become part of the workshop proceedings and will be submitted for inclusion into the *IEEE Digital Library*. Acceptance of a paper implies that one of the authors registers for the workshop to present the submission; failure to do so by the early registration deadline will result in the paper being withdrawn from the workshop proceedings.

ORGANIZING COMMITTEE

Sepideh Ghanavati, University of Maine, USA
Nan Niu, University of Cincinnati, USA
Gunter Mussbacher, McGill University, Canada
João Araújo, Universidade Nova de Lisboa, Portugal
Pablo Sánchez, Universidad de Cantabria, Spain

Contact: modre2021-info@cs.mcgill.ca

PROGRAM COMMITTEE

Omar Alam, Trent University, Canada
Mounifah Alenazi, Uni. of Hafr AlBatin, Saudi Arabia
Sanaa Alwidian, Université de Montréal, Canada
Daniel Amyot, University of Ottawa, Canada
Luciano Baresi, Politecnico di Milano, Italy
Jean-Michel Bruel, Université de Toulouse, France
Kleinner Farias, Uni. do Vale do Rio dos Sinos, Brazil
Xavier Franch, Uni. Politècnica de Catalunya, Spain
Martin Glinz, Universität Zürich, Switzerland
Martin Gogolla, Universität Bremen, Germany
Catarina Gralha, Universidade Nova de Lisboa, Portugal
Alicia Grubb, Smith College, USA
Renata Guizzardi, Uni. Federal do Espírito Santo, Brazil
Emílio Insfran, Universitat Politècnica de València, Spain
Juan de Lara, Universidad Autónoma de Madrid, Spain
Julio Leite, Pont. Uni. Católica do Rio de Janeiro, Brazil
Nicholas Matragkas, University of York, UK
Anna Medve, Pannon Egyetem, Hungary
John Mylopoulos, University of Ottawa, Canada
Elena Navarro, Universidad de Castilla-La Mancha, Spain
Richard Paige, McMaster University, Canada
Óscar Pastor, Universitat Politècnica de València, Spain
Sara Sartoli, University of North Georgia, USA
Carla Silva, Universidade Federal de Pernambuco, Brazil
Angelo Susi, FBK Center for Information Tech., Italy
Jose Luis de la Vara, Uni. de Castilla-La Mancha, Spain
Manuel Wimmer, Johannes Kepler Universität, Austria
Tao Yue, Simula Research Laboratory, Norway

IMPORTANT DATES in 2021

JUNE 17 ABSTRACT SUBMISSION

JUNE 24 PAPER SUBMISSION

JULY 23 ACCEPTANCE NOTIFICATION

AUG 12 CAMERA-READY VERSION
